**Panyu Nansha Port Passenger Transport Co., Ltd joined hands with
Shun Tak China Travel Ship Management Limited to launch a new route
from HKIA to GuangZhou (Nansha)**

Panyu Nansha Port Passenger Transport Co., Ltd (“NPPT”) announced that a new route connecting the Hong Kong International Airport (“HKIA”) and GuangZhou (Nansha) will commence operations on 26 June, 2009, and TurboJET, the operating brand of Shun Tak China Travel Ship Management Limited, has been appointed as its sole agent. From 26 June onwards, air passengers can enjoy the seamless connection between Nansha and HKIA.

Centrally located in the Pearl River Delta (PRD) Region, Nansha holds a critical and strategic role in promoting regional collaboration between Guangzhou, Hong Kong and Macau. NPPT is dedicated to the provision of comprehensive ferry and terminal services between Hong Kong and the Nansha Development Zone , whereas TurboJET is the pioneer in multi-model transportation services. Cooperation between the two companies will not only benefit transit passengers at the HKIA by offering them with wider commuting choices and flexibility, but also enhance regional economic integration and the overall connectivity of the PRD region to the rest of the world.

At its initial launch phase, the new route offers services at 9:30am from Nansha to HKIA and 3:30pm from HKIA to Nansha, tickets for the one-hour trip can be purchased online at www.turbojetbooking.com, or by person at designated TurboJET ticketing offices. Book now and enjoy special introductory fare. For enquiries please contact TurboJET at (852) 2859 3333 or visit the official website www.turbojet.com.hk.
