

Influenza Precautionary Measures Adopted by TurboJET

To provide a safe and comfortable journey for passengers, TurboJET has adopted a series of precautionary measures for the prevention of influenza A (H1N1) according to the advice from the Department of Health.

The precautionary measures are as follow:

1. Air Filter System

- 1.1 increase frequency of routine cleaning and sterilization of vessel air filter to a weekly basis
- 1.2 increase vessel fresh air circulation when necessary

2. Cleaning and Sterilization Measures

- 2.1 use of disinfectant spray in vessel cabin every time after disembarkation and before embarkation;
- 2.2 use 1 in 49 diluted bleach to clean sterilized carpets at the exit/entrance of vessels upon completion of every trip;
- 2.3 use of automatic liquid soap machine at vessels' toilets;
- 2.4 use 1 in 49 diluted bleach to clean and sterilize toilets, handrails and door-handles during the journey and upon completion of every trip
- 2.5 clean and sterilize handrails of gangway before embarkation and disembarkation
- 2.6 clean and sterilize seat back trays and hand rests of each vessel on a daily basis
- 2.7 clean and wipe with disinfectant provided onboard every vessel should cabin be contaminated with vomits or sputum
- 2.8 wear plastic gloves when undertaking cleaning duties and wash hands thoroughly on completion of cleaning duties
- 2.9 make available supplies of masks, disinfecting wipes, oral thermometer and thermometer sheaths on each vessel
- 2.10 use of disinfectant spray (ULV) in vessel cabin after daily vessel operation
- 2.11 clean and sterilize control panel in bridge after each shift

3. Cabin Services

- 3.1 Provide disinfecting wipes for passengers upon request
- 3.2 wear gloves when serving food and drinks onboard

4. Masks

- 4.1 provide masks to passengers upon request and used masks will be handled with special care

5. Waiting Hall (HK Macau Ferry Terminal)

- 5.1 frequent use of disinfectant spray in waiting hall
- 5.2 provide disinfectant liquid for passengers' use
- 5.3 provide an automatic disinfectant wet towel machine for passengers' use

6. Ticketing Offices

- 6.1 clean and sterilize counters and self-service ticketing kiosks every 4 hours
