

**For Immediate Release**

**Increases Sailings over Chinese New Year**

(13 February 2018 - Hong Kong and Macau) As Chinese New Year is one of the peak travel seasons during the year, TurboJET will strengthen its services by offering up to 60% extra capacity for Hong Kong-Macau routes from 15 February to 22 February 2018 to cope with the demand surge. During the peak period, ferry terminals will implement diversion measures accordingly. Travelers are advised to pay close attention to the instructions given at the terminals.

In view of the tight supply of ferry tickets during Chinese New Year, TurboJET would like to remind travelers to plan ahead and purchase return tickets in advance. In addition to our ticketing offices and the travel agents, travelers may also book tickets through our online booking system or mobile App for a time-saving and eco-friendly journey. Travelers can also enjoy a seamless sea-land connection with our five-star Premier Grand Class and the complimentary land transfer in Macau.

For more details about our sailing schedules and services, please visit TurboJET official website at [www.turbojet.com.hk/en/](http://www.turbojet.com.hk/en/).
